VICINITY MAP
NOT TO SCALE

INTRODUCTION

The proposed project site lies within the jurisdiction of the City of Santa Clarita. This Sewer Area Study has been prepared by Alliance Land Planning & Engineering, Inc. for Sheridan-Ebbert Development/Royal Clark Development Company located at 13120 Telfair Avenue, Sylmar, CA 91342. This study is being prepared at the request of the City of Santa Clarita Engineering Department to evaluate the capacity of the existing sewer systems that will serve this proposed development. The purpose of this study is to evaluate the capacity of the existing off-site downstream sewer sections from our development to the Los Angeles County Sanitation District maintained trunk sewer and determine if the existing sewer facilities can adequately serve the proposed development.

References used in the preparation of this study: LA County Sewer Maintenance Division Maps, LA County Department of Public Works As-built, Sanitary Sewer Drawings (PC 7549, PC 7599 and PC 8132), City of Santa Clarita Zoning Maps, City of Santa Clarita standards, approved off-site Sewer Area Study for TTM No. 43896 and sewer flow test data performed in June 2020.

This study evaluates the downstream off-site facilities and includes all tributary flows to the existing sewer system from the existing, proposed and future developments within the overall tributary areas. This study will show and determine the potential impacts of our proposed development.

SITE AND PROJECT DESCRIPTION

The Wiley Canyon project encompasses 31.8 acres and the proposed project is mixed use with a combination of commercial and residential land uses.

AREA ID	LAND USE	AREA OR NO. UNITS
1	Commercial	7.0 AC
2	Multi-family Residential	145 Units
3	Multi-family Residential	230 Units

The development lies halfway between Wabuska Street and Calgove Avenue directly adjacent to the east side of Golden State Freeway 5 in Santa Clarita. The property information is APN's 2825-012-007, -010, -011 and -901. C.S.M.D. Index No. N-1258, N-1259, N-1297 and N-1298. Thomas Guide 4640 D1-D2, E-E2, F1-F3, 4550 E7, F7 and G7. See Exhibit 1 for project location and surrounding areas.

The following area study has been prepared to show that the capacity is adequate for the existing downstream sewer segments from the proposed development site to the Los Angeles County Sanitation District (LACSD) trunk sewer (24" line within diversion structure) located at approximately 225 feet south of Wiley Canyon Road and Orchard Village Road intersection at manhole #781.

The developed areas of Wiley Canyon flows into an existing manhole #49 with an existing 10"-15" downstream sewer lines (PC 7599), existing 12"-18" sewer lines (PC 7549) and then to existing 24" La County Sanitary District trunk sewer line (within diversion structure at manhole #781); see the Sewer Area Study Exhibit (Exhibit 1, Appendix G) within the pocket of this report for the layout of the existing and proposed sewer systems.

DESCRIPTION OF EXISTING SEWER SYSTEM

The existing downstream sewer system consists of approximately 9,600 linear feet of gravity sewer pipe ranging in size from 10" to 18" before connecting to the 24" Sanitation District trunk line (within diversion structure at manhole #781).

Analysis of the existing sewer system begins at MH #49, located in Wiley Canyon Road approximately 840 feet south of Wiley Canyon Road and Wabuska Street intersection and terminates at the Sanitation District trunk line located at approximately 240 feet south of Wiley Canyon Road and Orchard Village Road intersection at manhole #781.

SEWER CAPACITY ANALYSIS

The sewer capacity analysis performed for this project includes calculating the proposed flow due to The Wiley Canyon development. See Table 1 for capacity calculations for each Planning Area. See Appendix A for Kutter Formula Calculations for each capacity and pipe size. See Sewer Area Study Map in the pocket of this report for sewer layout and capacity calculations.

The analysis also includes the percentage full of the pipes within the system. For the basis of this study all proposed sewer lines are calculated using a 1.0% slope. The percentage full for each pipe segment is shown on the Sewer Area Study Map in the pocket of this report.

The total flowrate generated by Wiley Canyon project is 0.480 cfs and enters the existing 10" sewer (PC 7599) at manhole #49, this pipe segment from MH #49 to #48 will be at 29.1% full (see Appendix A for calculation and flow capacity table within exhibit 1, Appendix G).

Only one segment (segment 41) of the existing 18" sewer line is over 75% full (84.4%) based on theoretical flow calculations. A flow test was performed at three locations, upstream MH 28, upstream MH 780 and existing 18" trunk line manhole northeast of MH 781, see flow test results within Appendix D of this report. Due to the very low flowrate at the existing 18" trunk line manhole, further investigation was performed and found that there is a diversion structure at MH 781 which directed all upstream flow to an existing 24" CDS trunk line. Based on the flow test data (actual flowrate of 2.500 cfs) at the upstream MH 28 and accumulated flow from upstream tributary areas, total Q for segment 41 is now 6.107 cfs which is currently 39.9% full for this segment before entering the diversion structure.

CONCLUSION

The Wiley Canyon project generates a total flowrate of 0.480 cfs which enters the existing 10"-15" sewer lines (PC 7599), existing 12"-18" sewer lines (PC 7549) and then to existing 24" LA County Sanitary District trunk sewer line (diversion structure). The pipe sizing shown on the Sewer Area Study Map is adequate to meet the City of Santa Clarita standards for a maximum of 50% full for the existing 10" to 12" downstream pipe segments and meet standards for a maximum of 75% full for the existing 15" to 18" downstream pipe segments. Therefore, it can be concluded that the existing downstream sewer system is of adequate size and capacity to accept the proposed flow from this project.

LAND USE/ SEWER GENERATION TABLE

AREA I.D.	LAND USE	AREA OR NO. UNITS	PEAK Q COEF.	PEAK Q

October 28, 2019

Ref. DOC 5335146

Ms. Ashley Holland, Project Coordinator
Alliance Land Planning & Engineering
2248 Faraday Avenue
Carlsbad, CA 92008

Dear Ms. Holland:

Will Serve Letter for Wiley Canyon Project

The Santa Clarita Valley Sanitation District (District) received your will serve letter request for the subject project on September 26, 2019. We offer the following comments regarding sewerage service:

1. The project area is outside the jurisdictional boundaries of the District and will require annexation into the District before sewerage service can be provided to the proposed development. For a copy of the District's Annexation Information and Processing Fee sheets, go to www.lacsd.org, Wastewater & Sewer Systems, Will Serve Program, and click on the appropriate link. For more specific information regarding the annexation procedure and fees, please contact Ms. Donna Curry at (562) 908-4288, extension 2708.
2. The wastewater flow originating from the proposed project will discharge to a local sewer line, which is not maintained by the District, for conveyance to either or both the District's Valencia Trunk Sewer, located in Orcharge Village Road east of Wiley Canyon Road, or the District No. 32 Main Trunk Sewer, located in a private right of way northeast of the intersection of Wiley Canyon Road and Orcharge Village Road. The District's 24-inch diameter Valencia Trunk Sewer has a capacity of 9.4 million gallons per day (mgd) and conveyed a peak flow of 1.9 mgd when last measured in 2018. The District's 18-inch diameter District No. 32 Main Trunk Sewer has a capacity of 3.3 mgd and conveyed a peak flow of 0.1 mgd when last measured in 2018.
3. The District operates two water reclamation plants (WRPs), the Saugus WRP and the Valencia WRP, which provide wastewater treatment in the Santa Clarita Valley. These facilities are interconnected to form a regional treatment system known as the Santa Clarita Valley Joint Sewerage System (SCVJSS). The SCVJSS has a capacity of 28.1 mgd and currently produces an average recycled water flow of 19.6 mgd.
4. The expected average wastewater flow from the project, described in the request as 150 assisted living units, 415 multi-family residential units, 10,000 square feet of commercial space and a 60,000 square-foot office building, is 100,105 gallons per day. For a copy of the District's average wastewater generation factors, go to www.lacsd.org, Wastewater & Sewer Systems, click on Will Serve Program, and click on the Table 1. Loadings for Each Class of Land Use link.

5. The District is empowered by the California Health and Safety Code to charge a fee for the privilege of connecting (directly or indirectly) to the District's Sewerage System for increasing the strength or quantity of wastewater discharged from connected facilities. This connection fee is a capital facilities fee that is imposed in an amount sufficient to construct an incremental expansion of the Sewerage System to accommodate the proposed project. Payment of a connection fee will be required before a permit to connect to the sewer is issued. For more information and a copy of the Connection Fee Information Sheet, go to www.lacsd.org, Wastewater & Sewer Systems, click on Will Serve Program, and search for the appropriate link. In determining the impact to the Sewerage System and applicable connection fees, the Districts' Chief Engineer and General Manager will determine the user category (e.g. Condominium, Single Family home, etc.) that best represents the actual or anticipated use of the parcel or facilities on the parcel. For more specific information regarding the connection fee application procedure and fees, please contact the Connection Fee Counter at (562) 908-4288, extension 2727.
6. In order for the District to conform to the requirements of the Federal Clean Air Act (CAA), the capacities of District wastewater treatment facilities are based on the regional growth forecast adopted by the Southern California Association of Governments (SCAG). Specific policies included in the development of the SCAG regional growth forecast are incorporated into clean air plans, which are prepared by the South Coast and Antelope Valley Air Quality Management Districts in order to improve air quality in the South Coast and Mojave Desert Air Basins as mandated by the CCA. All expansions of District facilities must be sized and service phased in a manner that will be consistent with the SCAG regional growth forecast for the counties of Los Angeles, Orange, San Bernardino, Riverside, Ventura, and Imperial. The available capacity of District treatment facilities will, therefore, be limited to levels associated with the approved growth identified by SCAG. As such, this letter does not constitute a guarantee of wastewater service, but is to advise you that the District intends to provide this service up to the levels that are legally permitted and to inform you of the currently existing capacity and any proposed expansion of District facilities.

If you have any questions, please contact the undersigned at (562) 908-4288, extension 2717.

Very truly yours,

Adriana Raza

Zoning and Land Use Data

City of Santa Clarita Zoning Descriptions

Chapter 17.31

ZONING DESIGNATION PURPOSE

Sections:

[17.31.010](#) Purpose.

[17.31.020](#) Consistency with the Zoning Map.

17.31.010 Purpose.

The non-urban, urban residential, commercial, industrial, mixed use, open space, public/institutional, specific plan, and corridor plan zones are established to achieve the following purposes:

- A. To reserve appropriate areas for the continuation of existing farms and ranches, residential living at a broad range of dwelling unit densities; for office uses, retail stores, service establishments, and wholesale businesses, offering commodities and services required by residents of the City and its surrounding market area; for industrial uses and the protection of these areas from intrusion by dwellings and other inharmonious uses consistent with the Santa Clarita General Plan and with sound standards to preserve public health, safety and welfare.
- B. To minimize traffic congestion and to avoid the overloading of public services and utilities by preventing the construction of buildings of excessive bulk or number in relation to the land area around them.
- C. To facilitate the provision of utility services and other public facilities commensurate with anticipated population, dwelling unit densities and service requirements.
- D. To promote high standards for site planning, architecture and landscape design for development within the City while preserving the City's historical and natural resources such as oak trees, river areas and ridgelines.
- E. To protect residential and commercial uses from noise, odor, dust, smoke, light intrusion, truck traffic and other objectionable influences and to prevent fire, explosion, radiation, and other hazards incidental to certain industrial activities.
- F. To ensure adequate light, air, privacy and open space for each dwelling and to provide sufficient open space around commercial and industrial structures to protect them from hazard and to minimize the impact of commercial and industrial operations on nearby residential zones.
- G. To encourage commercial and industrial uses to concentrate for the convenience of the public and for a more mutually beneficial relationship. (Ord. 13-8 § 4 (Exh. A), 6/11/13)

17.31.020 Consistency with the Zoning Map.

The zoning designations contained within this code shall correspond and be consistent with the zoning map as approved by Council ordinance. (Ord. 13-8 § 4 (Exh. A), 6/11/13)

This map displays a complex network of streets and residential addresses. Key features include:

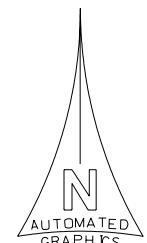

- Major Streets:** OAKRIDGE RD, DR. MORNING, 31, 30, MIST, 29, BRIGHTON PL, DR. 27.
- Cross Streets:** 52, 51, 50, 49 ST, TULIP, GROVE, WHISPERING OAKS RD, ARBOR LN, MEADOW LN, SOUTHERN OAKS, GREENSBRIER, PARASOL PL, OLD STONE, WY, RIVERWALK LN.
- House Numbers:** 54, 53, 52, 51, 50, 49, 48, 47, 46, 45, 44, 43, 42, 41, 39, 38, 37, 36, 35, 34, 33, 32, 28, 26, 25, 24, 23, 22, 21, 20, 19, 18, 17, 16, 15, 14, 13, 12, 11, 10, 9, 8, 7, 6, 5, 4, 3, 2, 1.

Sewer Capacity Calculations

Worksheet for ONSITE 8" PIPE P1

Project Description

Friction Method Kutter Formula
Solve For Discharge

Input Data

Roughness Coefficient	0.013
Channel Slope	0.01000 ft/ft
Normal Depth	0.620 ft
Diameter	0.667 ft

Results

Discharge	1.212 ft ³ /s
Flow Area	0.34 ft ²
Wetted Perimeter	1.74 ft
Hydraulic Radius	0.195 ft
Top Width	0.34 ft
Critical Depth	0.521 ft
Percent Full	93.0 %
Critical Slope	0.01259 ft/ft
Velocity	3.58 ft/s
Velocity Head	0.20 ft
Specific Energy	0.82 ft
Froude Number	0.63
Maximum Discharge	1.21 ft ³ /s
Discharge Full	1.11 ft ³ /s
Slope Full	0.01194 ft/ft
Flow Type	SubCritical

GVF Input Data

Downstream Depth	0.000 ft
Length	0.00 ft
Number Of Steps	0

GVF Output Data

Upstream Depth	0.000 ft
Profile Description	
Profile Headloss	0.00 ft
Average End Depth Over Rise	0.00 %
Normal Depth Over Rise	92.954 %
Downstream Velocity	Infinity ft/s

Worksheet for ONSITE 8" PIPE P1

ASSESSOR'S MAP
COUNTY OF LOS ANGELES, CALIF.

LEGAL DESCRIPTION:

PARCEL A:

PARCEL I:

ALL THAT CERTAIN PARCEL OF LAND ACQUIRED BY THE STATE OF CALIFORNIA BY PARCEL 4 OF DEED 63, RECORDED MARCH 22, 1951 AS INSTRUMENT NO. 3206 IN BOOK 35868 PAGE 28, OF OFFICIAL RECORDS, IN THE OFFICE OF THE COUNTY RECORDER OF SAID COUNTY AND THAT CERTAIN PARCEL OF LAND ACQUIRED BY THE STATE OF CALIFORNIA BY DEED 31, RECORDED IN BOOK 8172 PAGE 187, OF SAID OFFICIAL RECORDS, BOUNDED NORTHWESTERLY BY THAT CERTAIN COURSE HAVING A BEARING AND DISTANCE OF NORTH 62°16'58" EAST 50.27 FEET IN PARCEL 2 OF STATE HIGHWAY RELINQUISHMENT NUMBER 602, RECORDED IN BOOK R6678 PAGE 858 OF SAID OFFICIAL RECORDS, AND BOUNDED SOUTHWESTERLY BY THE FOLLOWING DESCRIBED LINE:

BEGINNING AT THE SOUTHWESTERLY CORNER OF SAID PARCEL 4; THENCE NORTHWESTERLY IN A DIRECT LINE TO THE SOUTHWESTERLY TERMINUS OF SAID COURSE, HAVING A BEARING OF NORTH 62°16'18" EAST, TOGETHER WITH ALL THE RIGHTS OF ACCESS AS ACQUIRED BY THE STATE OF CALIFORNIA BY SAID PARCEL 4.

EXCEPT THEREFROM ALL OIL, GAS, MINERALS, AND OTHER HYDROCARBON SUBSTANCES LYING BELOW THE SURFACE OF SAID LAND, BUT WITH NO RIGHT OF SURFACE ENTRY AS PROVIDED IN DEEDS OF RECORDS.

ALSO EXCEPT THEREFROM, ALL OIL, MINERALS, NATURAL GAS AND OTHER HYDROCARBONS BY WHATSOEVER NAME KNOWN THAT MAY BE WITHIN OR UNDER THE HEREIN CONVEYED PARCEL OF LAND, AND THE RIGHTS THERETO, TOGETHER WITH CERTAIN OTHER CONDITIONS, AS ACCEPTED AND RESERVED IN SAID DEED 63.

ALL THAT CERTAIN PARCEL OF LAND AS DESCRIBED IN AND CONVEYED BY THAT CERTAIN DIRECTOR'S DEED AS RECORDED ON APRIL 14, 1971 AS INSTRUMENT NO. 1770 OF THE OFFICIAL RECORDS IN THE OFFICE OF THE COUNTY RECORDER OF THE COUNTY OF LOS ANGELES, STATE OF CALIFORNIA.

PARCEL 2:

THAT PORTION OF LOT 7 AND OF THE SOUTHWEST QUARTER OF THE SOUTHEAST QUARTER OF SECTION 4, TOWNSHIP 3 NORTH, RANGE 16 WEST, SAN BERNARDINO BASE AND MERIDIAN, IN THE CITY OF SANTA CLARITA, IN THE COUNTY OF LOS ANGELES, ACCORDING TO THE OFFICIAL PLAT MAP THEREOF, DESCRIBED AS FOLLOWS:

PARCEL 2:

THAT PORTION OF WILEY CANYON ROAD, 40 FEET WIDE, IN THE COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, AS SHOWN ON MAP OF TRACT NO. 30340, FILED IN BOOK 741 PAGES 62 TO 68 INCLUSIVE OF MAPS, IN THE OFFICE OF THE RECORDER OF SAID COUNTY, WHICH EXTENDS FROM THE NORTHERLY PROLONGATION OF THAT CERTAIN COURSE OF NORTH 18°50'39" WEST 260.94 FEET IN THE WESTERY BOUNDARY OF LOT 135 OF SAID TRACT, NORTHERLY TO THE NORTHWESTERLY CONTINUATION OF THAT CERTAIN 1240 FOOT RADIUS CURVE IN THE NORTHEASTERLY BOUNDARY OF SAID LOT.

APN: 2825-012-007 (Affects: Parcel I of Parcel A)
2825-012-011 (Affects: Parcels 2 and 3 of Parcel A)
and 2825-012-010 (Affects: Parcel B)

EASEMENTS

8. Rights of the public in and to that portion of the land lying within any road, street and/or highway.

9. Water rights, claims or title to water, whether or not shown by the public records.
(Affects Parcel 1 of Parcel A and Parcel B)

10. Any facts, rights, interests or claims which would be disclosed by a correct ALTA/NSPS survey.

11. Rights of parties in possession.

THE FOLLOWING MATTERS AFFECT PARCEL A:

12. An oil and gas lease executed by Walter E. Berman and Dorothy Berman, husband and wife, as to an undivided one-half (1/2) interest; and Charles M. Monell, an unmarried man, as to an undivided one-half (1/2) interest as lessor and W. O. Anderson and J. I. Anderson as lessee, recorded as Book M3146 Page 316 of Official Records. Defects, liens, encumbrances or other matters affecting the leasehold estate, whether or not shown by the public records are not shown herein.

13. An easement for road purposes over a strip of land 40 feet wide, includes in Wiley Canyon Road, as shown on County Surveyor's Map No. 6664 on file in the Office of the county surveyor of said County of Los Angeles.

14. An easement for public utility and incidental purposes, recorded May 13, 1966 as Instrument No. 3063 in Book D3304 Page 451 of Official Records.

In Favor of: State of California (14)

Affects: as described therein

15. A waiver of any claims for damages by reason of the location, construction, landscaping or maintenance of a contiguous freeway, highway or roadway, as contained in the document recorded as Book D3304 Page 451 of Official Records.

16. Abutter's rights of ingress and egress to or from freeway have been relinquished in the document recorded April 14, 1971 as Instrument No. 1770 of Official Records.

(Affects Parcel 1)

17. An easement for public utilities and incidental purposes, recorded March 20, 1975 as Instrument No. 2388 of Official Records.

In Favor of: Southern California Edison Company, a Corporation (17)

Affects: as described therein

18. An easement for underground cables, wires, wave guides and conduits together with all necessary related underground surface and above ground pedestals and incidental purposes, recorded April 10, 1975 as Instrument No. 1597 of Official Records.

In Favor of: The Pacific Telephone and Telegraph Company, a Corporation (18)

Affects: as described therein

19. An easement for slope and incidental purposes, recorded September 28, 1998 as Instrument No. 98-1754090 of Official Records.

In Favor of: The City of Santa Clarita (19)

Affects: as described therein

20. A notice of power to sell tax defaulted property dated June 30, 2012 executed by the county tax collector for non-payment of delinquent taxes recorded August 19, 2015 as Instrument No. 2015-1018841 of Official Records.

(Affects Parcel 1)

21. A notice of power to sell tax defaulted property dated June 30, 2012 executed by the county tax collector for non-payment of delinquent taxes recorded August 19, 2015 as Instrument No. 2015-1018843 of Official Records.

(Affects Parcels 2 and 3)

THE FOLLOWING MATTERS AFFECT PARCEL B:

22. An easement for pole lines and incidental purposes in the document recorded in Book 2646 of Deeds, Page 261. The location of the easement cannot be determined from record information. (22)

23. An easement for pipe line for the transportation of water and incidental purposes, recorded in Book 4130 of Deeds, Page 27.

In Favor of: Standard Oil Company, a Corporation

SAID EASEMENT IS BLANKET IN NATURE

Affects: as described therein

The location of the easement cannot be determined from record information.

24. An easement for pipe lines for the transportation of oil, petroleum, gas or water and for telegraph and telephone lines and incidental purposes, recorded in Book 6741 of Deeds, Page 15.

In Favor of: Standard Oil Company, a Corporation

SAID EASEMENT IS INDETERMINATE IN NATURE

Affects: as described therein

The location of the easement cannot be determined from record information.

25. Easements and rights of way over the lands herein described which may be necessary for the lessee in the lease recorded October 16, 1951 in Book 37430 Page 234, Official Records, in its operation upon the lands retained by it under the provisions of said lease.

The location of the easement cannot be determined from record information.

26. An easement for drainage, pipe, communication and power lines and temporary construction purposes and incidental purposes, recorded June 21, 1965 as Instrument No. 940, in Book D2947 Page 229 of Official Records.

In Favor of: State Of California (26)

Affects: as described therein

The terms and provisions contained in the document entitled "Director's Deed" recorded June 17, 1969 as Instrument No. 2524 of Official Records.

27. Abutter's rights of ingress and egress to or from Golden State Freeway have been relinquished in the document recorded June 21, 1965 as Instrument No. 940 of Official Records.

28. A waiver of any claims for damages by reason of the location, construction, landscaping or maintenance of a contiguous freeway, highway or roadway, as contained in the document recorded June 21, 1965 as Instrument No. 940 of Official Records.

29. An easement for public utilities and incidental purposes, recorded October 17, 1973 as Instrument No. 2858 of Official Records.

In Favor of: The Pacific Telephone and Telegraph Company (29)

Affects: as described therein

30. Any private easements or lesser rights in, to, over Wiley Canyon Road that were not affected by the proceedings vacating said road, as the same was vacated by instrument recorded May 24, 1974 as Instrument No. 4414, Official Records. (30)

31. An easement for public utilities and incidental purposes, recorded May 05, 1982 as Instrument No. 82-462869 of Official Records.

In Favor of: The Pacific Telephone and Telegraph Company

SAID EASEMENT IS INDETERMINATE IN NATURE

Affects: as described therein

The location of the easement cannot be determined from record information.

32. An easement for public utilities and incidental purposes, recorded May 18, 1982 as Instrument No. 82-506871 of Official Records.

In Favor of: The Pacific Telephone and Telegraph Company

SAID EASEMENT IS INDETERMINATE IN NATURE

Affects: as described therein

The location of the easement cannot be determined from record information.

33. An easement for public utilities and incidental purposes, recorded July 22, 1985 as Instrument No. 85-839958 of Official Records.

In Favor of: Pacific Bell (33)

Affects: as described therein

The location of the easement cannot be determined from record information.

34. Survey prepared by SR Consultants West, Inc., dated December 21, 2004, revised January 14, 2005 and revised March 10, 2005, under Job No. 946 H, shows the following:

A. The facts that power poles and signs are located on said land.

B. The fact that parking spaces are located along the southeasterly portion of said land.

35. A notice of power to sell tax defaulted property dated June 30, 2012 executed by the county tax collector for non-payment of delinquent taxes recorded August 19, 2015 as Instrument No. 2015-1018842 of Official Records.

36. An easement shown or dedicated on the map of Assessor's Maps, Page 012, of Assessor's Maps.

For: Drainage and incidental purposes (36)

NOTES:

1. ACCESSIBLE AND ELECTRIC VEHICLE PARKING PER STATE REQUIREMENTS ARE INCLUDED IN THE ABOVE COUNTS
2. PA 1 A-C IS PROPOSED TO HAVE ALL OPEN PARKING
3. PA 2 AND 3 ARE PROPOSED TO HAVE 1 SINGLE CAR GARAGE OR 1 CARPORT PER UNIT
4. CARPORTS STALLS ARE PROPOSED TO BE 9' WIDE AND THE 9' DIMENSIONS INCLUDE THE STRUCTURAL SUPPORTS FOR THE CARPORTS
5. IT IS PROPOSED THAT CARPORTS ARE NO ENCLOSED AND ARE OPEN ON THE SIDE AND REAR
6. IT IS PROPOSED THAT LOCKABLE STORAGE FOR UNITS THAT DO NOT HAVE GARAGES CAN PROVIDE THE 250 CF OFF A PRIVATE DECK
7. IT IS ASSUMED THE POSTAL PARKING SHALL BE INCLUDED IN THE OVERALL PARKING COUNT FOR EACH NEIGHBORHOOD
8. THERE ARE 109 UNITS WITH MEZZANINES. IT IS ASSUMED THAT FOR PURPOSES OF PARKING THE MEZZANINES ARE NOT CONSIDERED BEDROOMS
9. THE MEZZANINE SPACE FOR THE 109 UNITS HAVE AN AREA/OF 10,800 SF
10. UNDER THE MXN CODE UP TO 187 PARKING STALLS CAN BE SHARED BETWEEN THE RESIDENTIAL AND COMMERCIAL USES (375 RESIDENTIAL UNITS X 0.5 SPACES/DU)
11. IT IS ASSUMED THAT THE 200 SF OPEN SPACE REQUIREMENT PER UNIT WILL BE MET BY A COMBINATION OF PRIVATE OUTDOOR SPACE AND COMMON OPEN SPACE. THERE IS A 15' MINIMUM DIMENSION FOR THE COMMON OPEN SPACE TO BE COUNTABLE. WATER QUALITY BASINS, NATURAL WATER COURSE AND AREA EAST OF WILEY CANYON ROAD NOT COUNTABLE.
12. IT IS ASSUMED THAT A 55' HEIGHT FOR PA 3 WILL BE ALLOWED SO THAT THE MEZZANINE SPACE WILL BE FEASIBLE
13. IT IS ASSUMED THAT THE 10,000 SF COMMERCIAL (RETAIL/OFFICE USES) AND THE 68,622 SF SKILLED NURSING/MEMORY CARE USES WILL REQUIRE 1 DELIVERY VAN SPACE EACH AT 12' X 20'
